

# Three in a Row

Ellis and Elise love family game nights! Last Saturday, they discovered that what is known as Tic Tac Toe in America is called Noughts and Crosses in Britain. Play this game with someone in your family. Try a new member each time.

**How to Play:** Only two players can play at a time. One player will be "X" and the other will be "O". The player who is playing "X" will go first. Players alternate placing X's and O's on the board until a player has three in a row, horizontally, vertically, or diagonally to win.

## Keep Score!
